

Engineered Solutions for Industrial Automation

Client Solutions:

- Control Panel Design & Assembly
- Custom Enclosure Fabrication
- Data Collection & Reporting
- Field Commissioning Assistance
- Harmonic Analysis & Mitigation
- Industrial Network Implementation
- Legacy Control System Migration
- Machine Design & Assembly
- Mechanical Engineering Assistance
- PLC & HMI Program Development
- SCADA Systems Integration
- UL 508A & 698 Standard Compliance
- Wireless Network Implementation

Typical Applications:

- Agitators
- Blowers
- Centrifuges
- Compressors
- Conveyors
- Extruders
- Fans
- Grinders
- Presses
- Pumps
- Valves
- Burner Controls
- Cooling Towers
- Fueling Systems
- Lift Stations
- Manufacturing
- Material Handling
- Packaging Lines
- Pulping Mills
- Solar Generation
- Water Treatment
- Vehicle Washes

Industries Served:

- Agricultural
- Automotive
- Entertainment
- Food & Beverage
- HVAC/R
- Mining
- Oil & Gas
- Power Generation
- Pulp & Paper
- Water & Wastewater
